LIVELY TIME HAD WITH BALAKLALA

Annual Meeting Recently Had Was Most Interesting of Company History.

LAWSON NOW ON THE BIG COMMITTEE

Will Be President of the Company Soon to Absorb the Balaklala.

According to the Boston News Bureau the recent annual stockholders' meeting of the Balakiala company in the East was rather a warm affair. Those holding the whip-hand, however, dld not attempt to ride rough shod over the iess fortunate ones, and the session passed off more quietly than the belligerant interests had anticipated. Of special interest was the election of a committee which in time will serve as the officers of the First National Copper company the organization that will take over the Balaklala and other copper mines an

This committee is as follows: Thomas J. Barbour, R. N. Bishop, W. H. Breevort, Joseph A. Coram, Thomas W. Lawson, Edgar L. Newhouse, T. M. T. Raborg and George N. Towle. So it will be seen that Lawson made good his assertion that he would be named at the meeting, and he will be president of the First National company when the same is organized. A dummy board of directors for the Balakiala company was elected, the only thing necessary for them to do will be to turn the company over to the First National when everything is ready for this trick to be turned. It was shown at the meeting that the expense of the Balakiala in smelter construction mine construction, mine tramsway, retiring bonds and interest on the latter amounted to \$1.885,082. Under the plan of financing \$1.312,500 will be raised, and its expenditure is arranged as follows:

To complete smelter and liquidule debt.
To stock smeller with ore.
To pay interest due Jan. 1, 1908.
To pay interest due July 1, 1908.
To pay scries B bonds due July To provide working capital.

WEEK STARTED OFF IN GOOD SHAPE MONDAY

The week on the local exchange started off with a whirl again yesterday, there off with a whirl again yesterday, there being a great deal of trading and at pretty good prices. Wabash slumped off in the morning, only to come back again in the afternoon is something like its form as shown last week. South Columbus Consolidated took another jump in the afternoon, and among the unlisted stocks Oillo Copper and Mason Valley were very strong. During the day a total of 120.725 shares of stock sold having a value of \$47,023.12. The following were the unlisted stock transactions:

ng filed Monday in the Secretary of State's office. This new company is cap-talized for 150,000 shares of stock, par rained as treasury stock. George Morgan la president, Charles D. Rooklidge, vice-president, Charles D. Rooklidge, vice-president; C. T. Murphy, J. D. Whittaker and A. J. Davis complete the board of directors. H. P. Clark will serve the company as treasurer, and L. L. Downling will act as secretary.

The Washakie company will take over the possessions of the Northern Nevada Exploration company.

the possessions of the Northern Nevada Exploration company, an organization of Salt Lakers who figure in the new company. This property was secured in the early days of that new camp, and splendid results have followed already the efforts of several leasers on the group. Five leasing propositions are now busy, and three are in ore, lease No. 5 sacking rock that runs anywhere from \$100 to \$900 per ton gold. It is the intention of the company to begin active development work without delay, and to add to the already ong list of bonanzas the camp now holds.
